

# COVID Safety Team

## Employment Type

Assisting with COVID safety at an event administered by Weightlifting Tasmania is a **voluntary** role.

## Position Objectives

The role of the COVID safety team is to reduce the risk of infection by implementing cleaning and hygiene protocols as listed below.

## Organisational Relationships

Members of the COVID Safety Team report directly to the event director (Leo Isaac) or assistant event director (Jacinta Keating).

## Work Roster

The work roster for persons assisting with COVID Safety will coincide with the competition schedule. The competition schedule has 10 sessions which on average will last 2 hours each. Therefore, any person assisting with COVID safety will likely be rostered for work **for a two-hour period**.

At their own discretion, a person may volunteer for more than one two-hour competition session.

The intention is to roster 5 persons for COVID safety for each competition session and nominate one person as team leader.

## Tasks

The COVID safety team will:

1. Ensure that persons entering the venue use the QR code to check in.
2. Check that hand sanitiser is available at entry/exit point and does not run out.
3. As soon as competitors have finished on their warm-up platform, clean, sanitize and return weight plates and bars used on warm-up platforms to the adjacent racks.
4. Sanitize surfaces that are frequently touched or in high traffic areas.
5. Ensure waste bins are frequently emptied.
